

# Security-Level Disclosure

## Attribute Names & Descriptions

Freddie Mac provides loan-level information at PC issuance and on a monthly basis for all newly issued fixed-rate and adjustable-rate mortgage (ARM) PC securities issued after December 1, 2005. Issuance month and monthly loan-level disclosure supplements Freddie Mac’s current daily and monthly pool-level disclosure for new and previously issued securities.

File formats and specifications for both the Security Core and Security supplemental disclosure files (issuance/monthly) can be found in the [Freddie Mac Single-Family Disclosure Guide](#).

This document is divided into the following two sections:

- Security Level Disclosure Attributes – page 1
- Security Level Stratifications – page 8

## Security-Level Disclosure Attributes

Fixed-Rate	ARM	Modified	Attribute Name	Description	Issuance	Monthly
•	•	•	<b>Average Mortgage Loan Amount</b>	The simple average dollar amount of the loans as stated on the notes at the time the loans were originated or modified.  <i>For reperforming, modified fixed-rate and modified step-rate loans, this value represents both the interest bearing and non-interest bearing amount.</i>	•	•
		•	<b>Average Origination Mortgage Loan Amount</b>	The simple average dollar amount of the loans in the security as stated on the notes at the time the loans were originated.  <i>This value represents both the interest bearing and non-interest bearing amount.</i>	•	•
	•		<b>Convertibility Indicator</b>	The indicator denoting whether the loans in the security have a feature that allows the borrower to convert from an adjustable rate to a fixed rate.  Y = Yes N = No 9 = Not Available	•	•
•	•	•	<b>Current Investor Security UPB</b>	The aggregate unpaid principal balance of the loans as they contribute to the current balance of the security.		•
•	•	•	<b>CUSIP</b>	The unique designation assigned to the security by the Committee on Uniform Securities Identification Procedures (CUSIP).	•	•
•	•	•	<b>Delinquent Loans Purchased (Loan Count)</b>	The number of loans that were purchased from the security due to delinquency status during the current reporting period.		•
•	•	•	<b>Delinquent Loans Purchased (Prior Month UPB)</b>	The aggregate prior period Investor Loan UPB of the loans that were purchased from the security due to delinquency status during the current reporting period.		•
•	•	•	<b>Eligible for Resecuritization</b>	The indicator denoting whether the security is eligible for resecuritization.  Y = Yes N = No	•	•

	•		<b>Initial Interest Rate Cap Up %</b>	The maximum percentage points the interest rate can adjust upward at the first interest rate adjustment date.  55.555 = Mixed 77.777 = Not Applicable	•	•
		•	<b>Initial Step Fixed-Rate Period</b>	For modified step-rate loans, the number of months between the first payment date of the modified loan and the first step rate adjustment.  00 = <=6 Months 01 = 7-18 Months 02 = 19-30 Months 03 = 31-42 Months 04 = 43-54 Months 05 = 55-66 Months 06 = 67-78 Months 07 = 79-90 Months 08 = 91-102 Months 09 = 103-114 Months 10 = 115-126 Months 11 = 127-138 Months 12 = 139-150 Months 13 = 151-162 Months 14 = 163-174 Months 15 = 175-186 Months 16 = >186 Months 55 = Mixed	•	•
•	•	•	<b>Interest Only Security Indicator</b>	The indicator denoting whether the loans require only interest payments for a specified period beginning with the first payment date.  Y = Yes N = No	•	•

## Security-Level Disclosure Attributes

Fixed-Rate	ARM	Modified	Attribute Name	Description	Issuance	Monthly
	•		<b>Interest Rate Adjustment Frequency</b>	The number of months, excluding any fixed-rate period, between scheduled rate changes.  555 = Mixed values	•	•
	•		<b>Interest Rate Lookback</b>	The number of calendar days prior to the interest rate adjustment date used to determine the effective index value required to calculate the next interest rate.  555 = Mixed values	•	•
•	•	•	<b>Issuance Investor Security UPB</b>	The aggregate unpaid principal balance of the loans as they contribute to the balance of the security at the time the security was issued.	•	
•	•	•	<b>Issue Date</b>	The date on which the security was issued.	•	•
•	•	•	<b>Issuer</b>	The name of the entity that issued the security.  FNM = Fannie Mae FRE = Freddie Mac	•	•
•	•	•	<b>Loan Count</b>	The total number of loans in the security.	•	•
•	•	•	<b>Maturity Date</b>	The month and year that the final scheduled payment on the loan is due.	•	•
	•		<b>Negative Amortization Factor</b>	For negative amortizing adjustable-rate loans, the decimal value that, when multiplied by the Issuance Investor Security UPB amount, equals the Negative Amortization amount.	•	•
	•		<b>Negative Amortization Indicator</b>	The indicator denoting whether the loans in the security allow negative amortization.  Y = Yes N = No 9 = Not Available	•	•
		•	<b>Next Step Rate Adjustment Date</b>	For modified step-rate loans, the month and year that the interest rate is scheduled to increase.	•	•
•	•	•	<b>Notes</b>	Additional information about the loans in the security.	•	•
•	•	•	<b>Notes Ongoing</b>	Additional information about the loans in the security.		•
		•	<b>Origination Third Party Origination UPB Percent</b>	The percentage of the aggregate Investor Loan UPB that were originated by a third party, to reflect Broker and Correspondent originations.	•	•
	•		<b>Payment Adjustment Frequency</b>	The number of months between scheduled payment changes. For a security with an initial fixed-rate period, the payment adjustment frequency is the number of months between subsequent payment changes.  555 = Mixed values	•	•
•	•	•	<b>Payment Delay Days</b>	The indicator denoting whether the loans in the security participate in a 45 Day, 55 Day, or a 75 Day payment delay period at the time the security was issued.  45 = 45 Days 55 = 55 Days 75 = 75 Days	•	•
	•		<b>Payment Lookback</b>	For negative amortizing adjustable-rate loans, the number of days prior to a payment effective date used to determine value when calculating a principal and interest payment.	•	•
	•		<b>Periodic Interest Rate Cap Down %</b>	The maximum percentage points the interest rate can adjust downward at each interest rate adjustment date after the first interest rate adjustment date.  55.555 = Mixed 77.777 = Not Applicable	•	•

## Security Supplemental File - Stratification Names & Descriptions

This file contains selected data about the composition of Freddie Mac's mortgage Participation Certificates (PCs) which represent interests in 1-4 family residential mortgages (single-family) or 5 or more family residential mortgages (multifamily). Information is provided as of the time of issuance of the PCs and is updated monthly. This data should be considered in conjunction with information appearing in the applicable Freddie Mac Offering Circulars, as supplemented.

Information is reported by security identifier (pool number). Where there is insufficient data to support calculations for a PC, zeroes or blanks have been placed in the record type for the PC.

The Security Supplemental file combines several different types of records within a single file. The first attribute in each row within the file will indicate the record type (stratification):

Unless stated otherwise, each stratification in the Security Supplemental file will contain the following attributes. Throughout the remainder of this document, these will be referred to as the "standard" attributes.

Standard Stratification Attributes:	
<i>The following attributes will be included for each stratification (record type) that is applicable for a given security.</i>	
Attribute	Description
Prefix	The designation assigned by the issuer denoting the type of the loans and the security.
Security Identifier	The unique designation assigned to the security by the issuer.
CUSIP	The unique designation assigned to the security by the Committee on Uniform Securities Identification Procedures (CUSIP).
Aggregate Loan Count	For the stratified attribute, the total number of loans in the security.
Percentage Loan Count	For the stratified attribute, the percentage of loans in the security.
Aggregate Investor Loan UPB	For the stratified attribute, the sum of the Investor Loan UPB for the loans in the security.
Percentage Investor Loan UPB	For the stratified attribute, the percentage of the Investor Loan UPB for the loans in the security.

• **Modification Program**  
(Record Type 26)

Stratified by the standard attributes noted above, the modification programs under which the loans in a security were modified.

Code	Program	Description
A	Alternative	Alternative modifications included capitalization of interest and certain non-interest arrearages, setting of interest rates to a fixed rate (increasing or decreasing rates), extending the Mortgage term to 480 months, a borrower trial period for the modification before they are finalized and may have included forbearance (but not reductions) of principal. The terms of the modifications under our alternative modification initiative generally were similar to those under our streamlined modification initiative; however, we generally offered the alternative modification to borrowers who were five to twenty-four months delinquent on their Mortgages. The alternative modification initiative was a one-time initiative and the final modification agreement must have been entered into no later than January 1, 2014.
B	HAMP Backup	Certain borrowers who initially qualified for a HAMP modification and who made timely payments during a HAMP trial period, but who, because of income verification or other reasons, subsequently failed to qualify under the HAMP program, could have had their Mortgages modified under our HAMP backup initiative (which was a non-HAMP initiative). HAMP backup modifications generally had terms similar to modifications under the HAMP program. HAMP backup modifications had to have first modified payment due dates on or before December 1, 2010.
C	Classic	Classic modifications included capitalization of interest and non-interest arrearages and may have included extensions of the term of the mortgage and reductions in interest rate, but not forbearance or reduction of principal. Classic modifications were discontinued as a standard Guide offering in February 2012.
D	Payment Deferral	Payment Deferrals include forbearance (but not reductions) of principal. Payment Deferrals are generally offered to borrowers who are between 30 days and 18 months delinquent (depending on the program). A trial period plan is not required. This code applies to both (i) the payment deferral modification initiative, implemented by select servicers beginning in May 2016, and (ii) the Payment Deferral initiative, which became available beginning July 1, 2020 and will be mandatory on January 1, 2021
E	Extend	Extend modifications include extending the Mortgage term by a number of months equal to the number of missed monthly payments, setting of interest rates to a fixed rate (increasing or decreasing rates), a borrower trial period for the modifications before they are finalized and may include forbearance (but not reductions) of principal. We ceased offering the Extend modification on October 1, 2020.
F	Flex	Flex modifications include capitalization of interest and non-interest arrearages, setting of interest rates to a fixed rate (increasing or decreasing rates), extending the Mortgage term to 480 months, a borrower trial period for the modifications before they are finalized and may include forbearance (but not reductions) of principal. Our Servicers must implement this initiative for loss mitigation evaluations occurring on or after October 1, 2017 (with earlier adoption permitted).
H	HAMP	HAMP modifications include capitalization of interest and non-interest arrearages, and, to the extent necessary to achieve a targeted modified payment, lowering of interest rates (to a floor of 2%), extending the Mortgage term and may include forbearance (but not reductions) of principal. HAMP modifications include a borrower trial period for the modifications before they are finalized. If the initial modified interest rate is less than the terminal step rate, the interest rate will increase after five years in 1% (or less) increments annually until the terminal step rate is reached. HAMP applies to Mortgages originated on or before January 1, 2009. Borrowers must have applied for HAMP no later than December 31, 2016 and, if eligible, must enter into a HAMP modification agreement no later than December 1, 2017.
O	Other	The borrower has executed a modification program other than the provided enumerations
P	Cap & Extend	Cap and Extend modifications include capitalization of interest and certain non-interest arrearages, extending the Mortgage term up to 480 months, setting of interest rates to a fixed rate (increasing or decreasing rates), a borrower trial period for the modifications before they are finalized and may include forbearance (but not reductions) of principal. We ceased offering the Cap and Extend modification on October 1, 2020.
R	Regular	Fannie Mae Only
U	Underwater	Underwater modifications included capitalization of interest and non-interest arrearages, setting of interest rates to a fixed-rate (increasing or decreasing rates), extending the Mortgage term, and may have included forbearance (but not reductions) of principal. The terms of the modifications under our underwater modification initiative were generally offered to borrowers with loan origination dates before May 31, 2009 whose Mortgages had estimated loan-to-value ratios at the time of modification of greater than 150%. The underwater modification initiative was a one-time initiative and the final modification agreement must have been entered into no later than August 1, 2013.
S	Standard	Non-HAMP Standard modifications include capitalization of interest and certain non-interest arrearages, setting of interest rates to a fixed rate (increasing or decreasing rates), extending the Mortgage term to 480 months, a borrower trial period for the modifications before they are finalized and may include forbearance (but not reductions) of principal. This initiative began in October 2011 and expired on September 30, 2017.
T	Streamlined	Streamlined modifications include capitalization of interest and certain non-interest arrearages, setting of interest rates to a fixed rate (increasing or decreasing rates), extending the Mortgage term to 480 months, a borrower trial period for the modifications before they are finalized and may have included
