Freddie Mac is dedicated to improving the U.S. housing finance system. Our Single-Family Credit Risk Transfer (CRT) program, established in 2013, is designed to reduce credit risk exposure to U.S. taxpayers while providing unique opportunities for the private sector to participate in the U.S. single-family residential credit market.

The goal of this handbook is to familiarize the private sector with Freddie Mac's complementary capital markets and (re)insurance CRT executions, STACR® and ACIS®. It also provides a close-up of Freddie Mac's risk management framework and quarterly U.S. housing statistics.

Development of an Asset Class
Freddie Mac’s Role in U.S. Housing Finance

Freddie Mac was chartered by the federal government in 1970 to provide liquidity, stability, and affordability to the housing market.

1. **Lenders originate loans.** Lenders include banks, credit unions, mortgage brokers and others. They originate loans per the Single-Family Seller/Servicer Guide and sell loans to Freddie Mac.

2. **Freddie Mac overlays its credit risk management framework on purchased loans, ensuring loan quality.** Underwriting and Quality Control processes take advantage of proprietary data models and intelligent automation to ensure all loans meet Freddie Mac underwriting standards.

3. **Interest rate risk is passed through to investors by guaranteed Uniform Mortgage-Backed Securities (UMBS®).** Investors include Federal Reserve, money managers, hedge funds, banks, credit unions and more.

4. **Credit investors gain exposure to the U.S. mortgage market through innovative risk-sharing offerings.** Investors include money managers, hedge funds, (re)insurers, Real Estate Investment Trusts (REITs), insurance companies and other investors.

**Credit Risk Transfer**

**Structured Agency Credit Risk (STACR®) Trust:** Freddie Mac’s flagship securitization credit risk sharing vehicle. STACR transactions transfer risk to the private capital markets through the issuance of unsecured and non-guaranteed notes. The bankruptcy-remote trust makes periodic payments of principal and interest on the notes to investors.

**Agency Credit Insurance Structure (ACIS®):** Freddie Mac’s flagship insurance-based credit risk sharing vehicle. ACIS transactions are insurance policies issued by or ceded to global (re)insurance companies to cover a portion of credit risk on the STACR or standalone reference pools. Freddie Mac pays monthly premiums to (re)insurers, based on their tranche participation, in exchange for claim coverage on their portion of the reference pool.

Clarity Updates

Beginning May 2023, both CRT dashboards and mortgage-backed securities (MBS) analytic data is available through Clarity.

Reminder: Login is required to access Clarity.

New Look
Primary driver for changes:
• To align with Freddie Mac’s corporate standards and industry best practices
• To build out a more flexible framework for future enhancements and ability to customize

New Dashboards
After logging into Clarity, you’ll have the option to choose between viewing CRT or MBS portals. While CRT dashboards will remain unchanged, if you choose to view MBS dashboards, you’ll have access to:
• NEW! Daily Prepayment Report – Cumulative Daily Voluntary Payoffs by Cohort
• Affordable and Green BS Issuance Volume
• Structured Transaction Issuance Reports

Notable Changes
NEW! STACR Reference Pool disclosures in EU template format
Filters are now in the upper right-hand corner
Easier navigation for each page by fixing the screen width and locking the headers
Benchmarks are displayed more clearly in a separate section

1. Transaction Overview
CRT Business Process

Transaction Overview

Loan Origination
Lenders originate loans to borrowers according to Freddie Mac origination guidelines. Freddie Mac purchases such loans and guarantees securities backed by the loans.

UMBS Packages
Loans purchased by Freddie Mac are grouped and sold to Uniform Mortgage Backed Securities (UMBS) investors, transferring interest rate risk away from Freddie Mac.

CRT Eligibility
Loans backing the guaranteed securities (UMBS) are subject to additional CRT eligibility requirements and screened for underwriting defects and performance deficiencies before being included in a CRT transaction.

Transaction Issuance
STACR and ACIS deploy similar financial structures. Freddie Mac maintains “skin in the game” by retaining all or a portion of each tranche, thus aligning Freddie Mac and investor interest with reference pool performance.

Underwriting Standards

Loan Advisor

Freddie Mac Loan Advisor® is a smart, end-to-end technology solution built to provide greater certainty about the quality of loans and offer insight into loans' purchase eligibility early in the loan production process. Loan Advisor’s advanced analytics and modeling capabilities automate processes, catch errors and identify opportunities to reduce risk.

Freddie Mac’s goal is to have 100% of loans processed through Loan Product Advisor or Loan Quality Advisor®

Loan Advisor is set up so the Exclusionary List is only accessible by approved Seller-Servicers

Loans sold to Freddie Mac must have documented evidence of the mortgagor’s ability to repay and of the value of the property

Appraisal independence rules insulate the appraiser from influence by other parties involved in processing or originating the loan

Representations & Warranties require the Seller/Servicer to repurchase the loan if there is a material underwriting defect discovered, subject to certain limits

*Does not include bulk deals
Underwriting Standards

Loan Product Advisor®

Loan Product Advisor (LPA℠) is the cornerstone of Loan Advisor. LPA takes advantage of proprietary data models and intelligent automation to promote loan compliance with Freddie Mac underwriting standards.

Features innovative tools and offerings leveraging algorithms to enhance the origination process

**Home Value Explorer® (HVE)**
An automated Freddie Mac tool used to determine values of properties inside and outside of Freddie Mac.

**Automated Collateral Evaluation (ACE)**
An offering that eliminates the need for a traditional appraisal for properties that have valuations validated by HVE.

**Asset and Income Modeler (AIM)**
An Automated Underwriting System (AUS) solution used to verify borrower assets and income. AIM is the first and only AUS solution in the industry to also assess self-employed income.

Generates an assessment of a loan's credit risk and overall quality

- Minimum credit score requirements
- Maximum debt-to-income ratio limits
- Maximum loan-to-value ratio limits
- Elimination of risky products (IOs, pay option ARMs, no documentation and balloons)
Quality Control (QC)

Freddie Mac performs QC across all purchased loans, including those that are credit enhanced by any of the CRT programs. Losses are mitigated through a comprehensive QC program across performing and non-performing loans, including third-party QC processes by lenders.

| Performing Loan QC | ▪ Regularly perform QC on a random and targeted basis to test the quality of recently purchased loans, including added focus on key elements of particular interest or concern (e.g., loan attributes or sellers).  
▪ Freddie Mac benchmarks every loan we purchase against our valuation model and appraisals are assessed within our automated system, Loan Collateral Advisor® for instantaneous feedback to the originator.  
▪ CRT transactions perform a separate Due Diligence review |

### 1. Forbearance
- Provides a temporary reduction or suspension of payments to give borrowers a specified period of time to improve their financial situation. No mod loss impact.

### 2. Reinstatement
- The most desirable resolution for a temporary hardship. Reinstatement is the act of restoring a delinquent Mortgage to current status.

### 3. Repayment Plan
- Gives the borrower a defined period of time to reinstate the Mortgage following a temporary hardship by paying normal regular payments plus an additional agreed upon amount in repayment of the Delinquency.

### 4. Payment Deferral*
- A relief option for borrowers who became delinquent due to a short-term hardship that has since been resolved. Past due payments are deferred (non-interest bearing) and will be due at maturity, payoff date, or upon transfer or sale of the Mortgaged Premises.

#### COVID-19 Payment Deferral*
- Leverages a similar concept to the Payment Deferral solution. An eligible borrower will be brought current by deferring delinquent amounts to create a non-interest bearing balance that will become due at the earlier of the Mortgage maturity date, payoff date, or upon transfer or sale of the Mortgaged Premises.

#### Disaster Payment Deferral*
- As with the Payment Deferral and the COVID-19 Payment Deferral, under the terms of a Disaster Payment Deferral an eligible Borrower will be brought current by deferring delinquent amounts to create a non-interest bearing balance that will become due at the earlier of the Mortgage maturity date, payoff date or upon transfer or sale of the Mortgaged Premises.

### 5. Flex Modification
- An affordable modification that provides significant payment relief to eligible borrowers, leverages requirements of the Freddie Mac Standard and Streamlined Modifications.

### 6. Applicable Credit Events
- Credit Events such as short sale, third party sale, deed-in-lieu, REO disposition
REO Overview

**Mission:** effectively manage Freddie Mac’s credit losses in a way that maximizes financial recoveries and supports community stabilization.

**Credit Loss Management**
- Improve Collateral Values
- Manage Expenses
- Maximize Remedies

**Community Stabilization**
- Preserve, Maintain, & Repair
- Price Homes At Fair Market Value
- Nonprofit / Owner-Occupant Priority
Freddie Mac utilizes an asset management firm to perform the core REO disposition activities using the firm’s vendor network.

**REO Core Process**

- **Outsourced With Freddie Mac Oversight**
  - The outsourcer and their vendors are required to use Freddie Mac systems, follow detailed policies & procedures, and utilize proprietary methodologies for valuation, pricing, and repair decisioning.

**REO Support & Financial Functions**

- **Managed By Freddie Mac Staff**
  - Freddie Mac staff perform oversight monitoring, support, and financial functions.

Servicing Guidelines for Disaster Relief

Freddie Mac Disaster Policy goes into effect when:

A property located in a county, parish or municipality has been declared by the President of the United States to be a Major Disaster Area where federal aid in the form of Individual Assistance is being made available (Eligible Disaster Area*).

Servicers must assist borrowers with Freddie Mac-owned mortgages who work or reside in the designated eligible disaster area*

Sustaining Homeownership During COVID-19 Workout Options – What Are They?

Relief Options

**Reinstatement**: An option to catch up on all the missed payments at once in a single lump-sum payment.

**Repayment**: An option to spread out past due amount on the mortgage over a set time frame (e.g., 3, 6, 9 or up to 18 months) and added onto the existing mortgage payments.

**Payment Deferral**: An option to defer up to two monthly delinquent amounts to create a non-interest bearing balance that will become due at the earlier of the mortgage maturity date, payoff date, or upon transfer or sale of the mortgaged premises.

**COVID-19 Payment Deferral** (Effective July 1, 2020): An option to defer up to eighteen monthly delinquent amounts to create a non-interest bearing balance that will become due at the earlier of the mortgage maturity date, payoff date, or upon transfer or sale of the mortgaged premises. The hardship must be related to COVID-19.

Modification Options

**Flex Modification**: An option for borrowers who can no longer afford their pre-forbearance payment. It adds unpaid balances from a forbearance period to an unpaid loan balance. The payment reduction is calculated depending on the LTV.

Transition to SOFR-Indexed CRT Issuance

- Reducing LIBOR exposure and LIBOR transition risk for investors has been a high priority for Freddie Mac.
- Freddie Mac has been a market leader in LIBOR transition and successfully issued floating rate notes (FRNs), agency CMOs, Multifamily K-Deal® and a STACR deal that are indexed to SOFR.

### Timeline

- **2019**
  - Freddie Mac Intentions: Announced our intention to begin issuing SOFR-indexed CRT deals in Q4 2020.

- **May 2020**
  - Replacement Feedback: Closely engaged CRT investors to get feedback on LIBOR replacement index.

- **June 2020**
  - Market Readiness: Conducted a joint GSE market survey to gauge the market readiness for SOFR-indexed CRT.

- **Q3 2020**
  - Index Methodology: Published SOFR index methodology for new CRT issuance, and affirmed SOFR readiness with key market participants.

- **October 2020**
  - Inaugural SOFR CRT: STACR 2020-DNA5 was Freddie Mac’s inaugural SOFR-indexed CRT transaction.
  - Inaugural SOFR CRT: Freddie Mac discontinued issuance of LIBOR-indexed CRT deals.

- **Future**
  - SF CRT Legacy Libor Transition in 2023.
Since developing the tender offer program in 2021, Freddie Mac has successfully conducted five STACR® tender offers, totaling approximately $9,592 million original principal amount ($6,925 million current principal amount) in repurchased bonds.

STACR® tender offers allow Freddie Mac to reduce the interest expense on STACR® notes that no longer provide economically sensible credit protection to Freddie Mac. After a tender offer, all STACR® notes that are tendered and accepted are retired and cancelled.

STACR® tender offers inject liquidity to the market, especially for less liquid, off-the-run STACR® notes. All STACR® tender offers have provided noteholders with an opportunity to sell eligible STACR® notes at an announced tender price, without any adverse impact on the secondary market. For noteholders who decide not to tender, their notes remain outstanding, and the bond payments and credit enhancement levels are not affected by tender offers.

Through STACR tender offers, Freddie Mac accelerates principal payments to CRT noteholders, allowing them to potentially reinvest in on-the-run CRT new issue notes.
Since 2021, Freddie Mac has exercised its 5-Year ACIS call option to wind down over $1 billion in out-of-the-money coverage and save over $100 million in future premium spend.

Freddie Mac retains sole discretion over whether or not to exercise any call options and the timing thereof, which may be impacted by market conditions.

Freddie Mac may exercise call options on STACR and ACIS deals, as specified in the applicable private placement memorandum and/or offering documents, and will determine when to exercise based on business objectives which may consider capital relief, cost, and other factors.

Notice to Canadian Investors:
The Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Notice to Spanish Investors:
No action has been or will be taken by Freddie Mac that would permit a public offering of the Notes in Spain non-exempted from the prospectus requirement. Neither the Notes nor the offering have been or will be registered or approved by the Spanish Securities Market Commission (Comisión Nacional del Mercado de Valores) ("CNMV") and, therefore, no prospectus has been or will be registered or approved by the CNMV for the purposes of this offering.
Notice to Japanese Investors:

The Notes have not been and will not be registered under FIEA and, accordingly, each Initial Purchaser undertakes that it will not offer or sell any Notes directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan or to others for re-offering or resale, directly or indirectly, in Japan or to any resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with the FIEA and other relevant laws and regulations of Japan. As used in this paragraph, “resident of Japan” means any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

Notice to Korean Investors:

The Trust is not making any representation with respect to eligibility of any recipients of this Presentation to acquire the Notes referred to herein under the laws of Korea. The Notes offered under this Presentation have not been and will not be registered with the Financial Services Commission of Korea for public offering in Korea under FSCMA and are therefore subject to certain transfer restrictions. The Notes may not be offered, sold or delivered, directly or indirectly, or offered or sold to any person for re-offering or resale, directly or indirectly, in Korea or to any resident of Korea (as defined in the Foreign Exchange Transaction Law of Korea) except pursuant to the applicable laws and regulations of Korea, including the FSCMA and the Foreign Exchange Transaction Law and the decrees and regulations thereunder.

Notice to Investors in the People’s Republic of China (“PRC”, for the sole purpose herein, excluding Hong Kong, Macau and Taiwan):

The Notes may not be offered or sold directly or indirectly within the PRC. The offering material or information contained herein relating to the Notes, which has not been and will not be submitted to or approved/verified by or registered with any relevant governmental authorities in the PRC (including but not limited to the China Securities Regulatory Commission (“CSRC”)), may not be supplied to the public in the PRC or used in connection with any offer for the subscription or sale of the Notes in the PRC. The offering material or information contained herein relating to the Notes does not constitute an offer to sell or the solicitation of an offer to buy any securities in the PRC.

The Notes may only be invested by PRC investors that are authorized to engage in the purchase of notes of the type being offered or sold, including but not limited to those that are authorized to engage in the purchase and sale of foreign exchange for themselves and on behalf of their customers and/or the purchase and sale of government bonds or financial bonds and/or the purchase and sale of debt securities denominated in foreign currency other than stocks. PRC investors are responsible for informing themselves about and observing all legal and regulatory restrictions, obtaining all relevant approvals/licenses, verification and/or registrations themselves from relevant governmental authorities (including but not limited to the People’s Bank of China, CSRC, the State Administration of Foreign Exchange, the China Banking and Insurance Regulatory Commission and other relevant regulatory bodies), and complying with all relevant PRC regulations, including, but not limited to, all relevant foreign exchange regulations and/or foreign investment regulations.

Notice to Singaporean Investors:
